Full Stack Web Developer

SKILLS SUMMARY

Programming/Scripting Language
- React.js
- Next.js
- JavaScript/TypeScript
- HTML
- CSS/SCSS
- Bootstrap
- Tailwind CSS
- C#
- Python/Django
- Git

Programming and Web Development
- Proficient in HTML5 and CSS3 for creating visually appealing and responsive user interfaces
- Expertise in React.js and Next.js for building dynamic and efficient user interfaces
- Experienced in API integration using Fetch for seamless communication between front-end and back-end

EDUCATION

BS   ACLC College of Meycauayan, Information Technology   April 2017
Meycauayan, Bulacan

Zuitt Web Developer Program (MERN)   Nov 07 - Jan 15, 2023
Full-stack Web Development
- Designed and created a static mobile friendly portfolio website
- Developed an E-Commerce API using Node and Express.js
- Completed a Full-Stack Application using the MERN Stack

WORK EXPERIENCE

Sparksoft Solution   Feb 2023 to Present

Full Stack Developer
- Spearheading front-end development tasks, focusing on maintaining and integrating new features into existing applications using technologies such as React.js and Next.js.
- Leading efforts to enhance user interfaces, ensuring a seamless and visually appealing experience for end-users.
- Collaborating closely with cross-functional teams to integrate APIs, optimizing communication between front-end and back-end components.

Twilight Internet Cafe   Nov 2017 to March 2020
Technical Support
- Installed and supported both hardware and software components for user group.
- Escalated technical issues properly to facilitate rapid resolution.
- Troubleshooted hardware, software and PC operating system issues.
- Diagnosed and troubleshooted technical problems and made repairs.

PROJECTS ACCOMPLISHMENTS

Tracking Application – Elid Technology International   Aug to Sept 2023
Frontend Developer
- Transformed Figma mock-up designs into a fully functional and responsive website, ensuring a pixel-perfect implementation of the user interface.
- Utilized Next.js for efficient and optimized development, enhancing the performance of the tracking application.
- Conducted API integration to seamlessly connect the front-end with the back-end, facilitating real-time data updates and interactions.
- Collaborated closely with design and back-end teams to ensure consistency between the user interface and the underlying functionality.
- Implemented best practices for code maintainability, scalability, and performance to meet project requirements.

VSona AI Voice Chat Model   Sept 2023 to Present
Frontend Developer
Vsona A.I. (v2-ui-vsona-ai-i32c4e5j2a-uc.a.run.app)
- Implemented a responsive and visually appealing website by translating Figma mock-up designs into a live user interface for the VSona AI Voice Chat Model.
- Leveraged Next.js to streamline development, resulting in an optimized and performant frontend for the voice chat application.
- Executed seamless API integration to connect the frontend with the VSona AI backend, enhancing the user experience through real-time data updates.
- Collaborated closely with the design team to ensure the accurate translation of design elements and user interactions into the final product.

- Applied best practices for code maintainability, scalability, and performance to meet the specific requirements of the voice chat application.
